The Earthquake Supply Center sells emergency survival kits and products suggested by Emergency Personnel and Government Agencies to help increase your chance of surviving earthquakes and other disasters. Under these circumstances, the performance of the products cannot be unconditionally guaranteed. Neither seller nor the manufacturer shall be liable for any injury, loss or damage resulting from misuse of, or inability to use, products. Before using, user should determine the suitability of the product for its intended use and should only use the product after following the instruction for proper use. It is our goal to sell reliable, affordable, quality products to help protect you, your family, your home, business, school, and vehicle. **Prices subject to change**

"The most important place to keep a kit is in your car, because that may be all that you have available for your survival if you are away from home or across a bridge and can't get home."
